February 2019 Vol 14 No 2

The good news is that more people are surviving breast cancer, but with survivorship comes long-term treatment effects such as fatigue, hot flashes, and night sweats. Sleep disturbance, sexual dysfunction, weight issues, and fear of recurrence are common challenges. The Association of Perioperative Registered Nurses (AORN) is the national association committed to improving patient safety in the surgical setting. AORN is the premier resource for perioperative nurses, advancing the profession and the professional with valuable guidance as well as networking and resource-sharing opportunities. AORN promotes safe patient care and is recognized as an authority.

Perioperative services is a dynamic department with over 800 employees, 61 adult operating rooms as well as 19 pediatric operating rooms in Monroe Carell Jr Children’s Hospital as part of the Vanderbilt University Medical Center. Our employees participate in the implementation of cutting-edge surgical technology and assist in the latest procedures. This essential resource provides 32 evidence-based guidelines for all perioperative and invasive procedures. The 2019 edition has been redesigned and enhanced for easier use by many accrediting bodies and state health agencies. Use the guidelines for perioperative practice during their surveys, making implementation of these guidelines critical.

Introduction to Perioperative Nursing - Learner Objectives

1. Effort to better utilize nursing resources. Many perioperative nurses, particularly in smaller hospitals, have been trained in postanesthesia care. The Association of Perioperative Registered Nurses (AORN) 14th perioperative nurse is a nurse who specializes in the care of patients undergoing surgery.

Messina, PhD, RN, ANP. Perioperative orientation resources: Your guide to orientation, recruitment, and retention. Retrieved from the Association of Perioperative Registered Nurses (AORN) Journal 80(5):827-838.
Minnesota Alliance for Nursing Education (MANE) is an alliance of Minnesota nursing programs dedicated to increasing the educational capacity for baccalaureate education. The MANE program is a shared concept-based baccalaureate curriculum based on a set of core competencies intended to prepare graduates to provide care to individuals and families. It addresses the growing need in the medical community for aggregated unbiased resources and online learning on topics relating to health information technology, compliance, government incentive programs, and more. Orientation programs in facilities vary, and one orientation program may not adequately address every need. Orientation timelines and their effect on the budget vary depending on the capacity of the facility. Before a new perioperative RN or ST begins to work independently in his or her environment, the American Association of Perioperative Registered Nurses (AORN) estimates that being in an operating room for just one day has the potential to expose operating staff to surgical smoke that is equivalent to smoking 27 to 30 unfiltered cigarettes.
