has been found on the, in my learning experience the teachers competence and personality were very influential factors in deteriorating my motivation in addition to that the negative attitude of people towards the foreign language community become challenging such demotivating factors of L2 learning need to be tackled, as motivational factors have been reported to have positive overbearing demotivating factors are the flip side and hinder the learning process and lead to unsuccessful mastery of English proficiency Hu 2011 p 88 these demotivating factors or demotives are in fact the negative counterparts of motives Yan 2009 p 109, demotivation factors in foreign language learning recommend documents demotivation understanding resistance to English language learning cooperative language learning and foreign language learning to the developmental trend of language teaching method and possesses there is a principle that interaction drives learners to, of factors that influence foreign language learning and student achievement language instructors hope that these factors are motivational but often times they are demotivational such demotivating factors can affect an individual student's success as well as affect the rest of the classes performance as a whole therefore, motivating and demotivating factors for students with low emotional intelligence to participate in speaking activities her areas of research are affective factors in foreign language learning and teacher professional development profile issues in teachers professional development, problem statement demotivation is a relatively new issue in the field of second foreign language 12 learning motivation recognizing and removing barriers can have a marked effect on motivation and attention to learning in general and ESL EFL learning in particular demotivating factors are essential factors which negatively influence the learner's attitudes and behaviors and hence lead, the following nine demotivating factors were extracted and presented a teachers personalities commitments competence teaching methods b inadequate school facilities c reduced self-confidence due to their experience of failure or lack of success d negative attitude toward the foreign language studied e compulsory nature of, EBSCOhost serves thousands of libraries with premium essays articles and other content including demotivating factors in second language learning at state Azad and Payam Nour Universities get access to over 12 million other articles, motivated to learn Arabic it is important to research the flip side of motivation in the form of demotivation by investigating the underlying demotivating factors associated with foreign language learning this study will offer support in terms of comprehending theories of motivation and in the case of teachers or language instructors, the purpose of this study was to explore the demotivating factors of the learners in EFL learning at one Madrasah Tsanawiah in Jambi city particularly this study was to find out the particular factors that demotivate Madrasah Tsanawiah students during the learning process many studies have mainly focused on teachers motivation or students motivation and teachers motivation, course of foreign language learning and teaching he decided to t research on the conducive demotivating factors in the current EFL teaching process due to some problems identified by the graduates during their teaching process following a painstaking search the author noted, Ikeno O 2002 motivating and demotivating factors in foreign language learning a preliminary investigation Ehime University journal of English Education Research 2 119 Jomairi S 2011 demotivating factors in second language
learning at state azad and payam nour universities, have been studying
demotivating factors in second language acquisition sla since the 1990s the
paper is to probe into the demotivating factors for english learning of
vocational college students in leshan city sichuan china about 250 students
with different majors in leshan vocational and technical college were
involved in, the first part examines the definition and factors of
demotivation while the second part reviews a set of empirical studies on
demotivating factors in learning a language in various contexts among, this
research entitled demotivating factors in learning the english language aimed
to determine the demotivating factors of filipino students in learning the
english language specifically it aimed to answer 1 what are the teacher
intervention strategies employed by the teachers of lorna colleges, this
study investigates the components of motivation in foreignlanguage learning
fll which involves learning the target language in institutional academic
settings without regularly interacting with the target language community it
was assumed that the results obtained from secondlanguage acquisition sla
depend on those in which the target language is learned at least partly, among
the many factors that are said to affect language learning is the concept of
motivation which can influence the rate and success of learning a foreign
language drnyei 2005 believed that motivation plays a critical role in the
sustained process of mastering a language, the present study probed 250
english as foreign language efl learners de motivation by investigating its
role in students burnout i.e. a state of physical emotional and mental
exhaustion caused by long term involvement in situations that are emotionally
demanding or stressful it also sought to examine the indirect impact of de
motivation and direct impact of burnout on language, demotivation is a
research area which has recently been the focus of many research works in
language learning field in saudi context there is lack of research that
investigated demotivating factors affecting learning english among saudi
undergraduate students therefore this study aims at investigating the factors
affecting english as a foreign language efl learning of saudi undergraduate,
students foreign language learning outcomes review of the related literature
while motivation is consequently studying the demotivating factors of
critically important to student learning lack of motivation language learning
is a crucial responsibility of language is a frequent problem with students
at all levels all, second foreign language 12 learning motivation recognizing
and removing barriers can have a marked effect on motivation and attention to
learning in general and esl efl learning in particular demotivating factors
are essential factors which negatively influence the learners, another study
conducted by falouta elwoodband and hood 2009 was about demotivating factors
in studying a second language and the effect of past demotivating factors on
the present proficiency in the mentioned study the factors were divided into
three groups external conditions of the learning environment internal
condition of the learner University Students’ Perception of Demotivating
Factors in
March 7th, 2019 - Demotivation is a relatively new topic in the field of
second or foreign language acquisition which is in need of more rigorous
research In this regard the present study was an attempt to investigate
demotivating factors in learning English as a foreign language in an Iranian
context To this end 382 Persian learners of English were selected through
stratified clustering sampling procedure
